SYLLABUS

Name of Course: Full Spine Lab - TECH-202

Length of Course: 1 unit, 20 hours (2 hours /week)

Course Description: This course is designed to refine and enhance the student

doctor's full spine adjusting skills in the Diversified and the

Gonstead Technique as taught at Life West. Emphasis is placed on review and actual adjusting performance and skill in the previously learned core technique methods. The primary goal is help each student identify specific areas of needed improvement and development in the adjusting skill set required for rendering

competent care in the Health Center.

Prerequisites: TECH-238, TECH-222

Corequisites: HC-310

Course Offered By: Technique Department

Required Text: Course Notes / Handouts

Recommended Text: Bergman, T. F., & Peterson, D. H. (2011). Chiropractic

Technique: Principles and Procedures (3rd Ed.). Herbst, Gonstead Chiropractic Science and Art

Plaugher, Textbook of Clinical Chiropractic: A Specific

Biomechanical Approach

Materials: Current CMR review, Radiology Report, Accessible Radiographs

on the Opal System or comparable documentation from the Health

Center clearing the student for adjusting in the classroom

environment.

Methods of

Instruction: Reviews of adjustive moves, hands-on practice and drill with

assistance from the instructor(s). Canvas technique video library.

Approved S.O.A.P. note documentation and format will be

employed for the assessment and evaluation portion of the lab. This is a learning environment contributing toward the preparation of the student for the adjustive skillset necessary for the clinical

experience in the Health Center

Evaluation Criteria: This course is pass / no pass. Each student is expected to complete 2 Full Spine evaluations (1 Diversified and 1 Gonstead) and SOAP notes with set up or adjustment.

Students are asked to complete a self-assessment during the first class session

Extra Credit: There will be no extra credit work accepted in this class

<u>Grades and the Grading System Final Grades</u> are available online through the CAMS student portal. If there are any questions on grading procedures, computation of grade point average, or the accuracy of the grade report, please contact the Registrar's Office or the Office of Academic Affairs. Grades will be reported and evaluation will be based on the Academic Policies, Procedures, & Services. Please refer to Evaluation Policy (Policy ID: OAA.0007)

In order to maintain <u>Satisfactory Academic Progress</u>, a student must maintain a 2.0 or better in each and every course. **Any grade less than a C must be remedied by repeating the class.** Please refer to Satisfactory Academic Progress (<u>Policy ID:</u> OAA.0006)

Attendance: Please refer to Attendance Policy (Policy ID: OAA.0002)

Conduct and

Responsibilities: Please refer to the Personal Conduct, Responsibility and Academic

Responsibility Policy (Policy ID: OAA.0003)

Make-up Exams: Please refer to Make-up Assessment Policy (**Policy ID: OAA.0001**)

Request for

Special Testing: Please refer to Request for Special Testing (**Policy ID: OAA.0004**)

Accommodation for Students with Disabilities:

If you have approved accommodations, please make an appointment to meet with your instructor as soon as possible. If you believe you require an accommodation, but do not have an approved accommodation letter, please see the Academic Counselor Lori Pino in the Office of Academic Affairs. Contact info: Lpino@lifewest.edu or 510-780-4500 ext. 2061. Please refer to Service for Students with Disabilities Policy (Policy ID:OAA.0005)

Electronic Course Management:

Canvas is LCCW's Learning Management System (LMS). Canvas will be used throughout the quarter during this course. Lectures, reminders, and messages will be posted. In addition, documents such as the course syllabus and helpful information about the class project will be posted. Students are expected to check Canvas at least once a week in order to keep updated. The website address for Canvas is https://lifewest.instructure.com/login/canvas Please refer to the Educational Technologies Policy (Policy ID: OAA.0009)

Life West Technique Lab Attire Policy:

Healthy clean hygiene is expected from all students. It is recommended that students bring a face cloth and/or towel to place on the table. Towels reduce the need for the use of chemical sanitation treatments on the adjusting tables.

Accessibility to the Spine and Spinal Structures:

- Patient gown In an effort to recreate a clinical setting and to appropriately facilitate the realistic use of skills relative to professionalism and personal boundaries, "gowns" made of torn or altered t- shirts/garments are not acceptable for this course.
- To maintain modesty and a professional environment, no revealing attire is permitted.
- Covered shoes (sandals and flip flops do not qualify) are required for all participants.

Materials Required:

Patient Gown (preferably waist length)
Skin Marking Pencil

Please check with your instructor for any further instructions for your particular course or if you have any concerns about the appropriateness of specific articles of clothing.

The following course topics will be covered from Week 1-10:

- Student self-assessment on Diversified and Gonstead analysis and adjusting to identify learning gaps and fine tune application of these techniques while in the Health Center
- Review of course content for Diversified and Gonstead
- Introduction to resources for interns such as Health center Intern Canvas page content, procedure to consult with campus faculty, and Opal x ray marking

<u>Student Learning Outcomes (SLO):</u> At the completion of this course, a student should be able to:

- 1. Demonstrate improvement in specific areas of analysis adjusting as identified in the initial assessment process.
- 2. Demonstrate how to assess and identify the subluxation complex in other students
- 3. Perform successful set ups or adjustments in full spine adjusting using Diversified and Gonstead technique

The following PLO's are mapped to this course: [1, 2]

<u>Program Learning Outcomes (PLO):</u> Students graduating with a Doctor of Chiropractic degree will be proficient in the following:

- 1. ASSESSMENT AND DIAGNOSIS: An assessment and diagnosis requires developed clinical reasoning skills. Clinical reasoning consists of data gathering and interpretation, hypothesis generation and testing, and critical evaluation of diagnostic strategies. It is a dynamic process that occurs before, during, and after the collection of data through history, physical examination, imaging, laboratory tests and caserelated clinical services.
- 2. MANAGEMENT PLAN: Management involves the development, implementation and documentation of a patient care plan for positively impacting a patient's health and well-being, including specific therapeutic goals and prognoses. It may include case follow-up, referral, and/or collaborative care.
- 3. HEALTH PROMOTION AND DISEASE PREVENTION: Health promotion and disease prevention requires an understanding and application of epidemiological principles regarding the nature and identification of health issues in diverse populations and recognizes the impact of biological, chemical, behavioral, structural, psychosocial and environmental factors on general health.
- **4. COMMUNICATION AND RECORD KEEPING**: Effective communication includes oral, written and nonverbal skills with appropriate sensitivity, clarity and control for a wide range of healthcare related activities, to include patient care, professional communication, health education, and record keeping and reporting.
- **5. PROFESSIONAL ETHICS AND JURISPRUDENCE**: Professionals comply with the law and exhibit ethical behavior.
- **6. INFORMATION AND TECHNOLOGY LITERACY**: Information literacy is a set of abilities, including the use of technology, to locate, evaluate and integrate research and other types of evidence to manage patient care.
- 7. CHIROPRACTIC ADJUSTMENT/MANIPULATION: Doctors of chiropractic employ the adjustment/manipulation to address joint and neurophysiologic dysfunction. The adjustment/manipulation is a precise procedure requiring the discrimination and identification of dysfunction, interpretation and application of clinical knowledge; and, the use of cognitive and psychomotor skills.
- **8. INTERPROFESSIONAL EDUCATION**: Students have the knowledge, skills and values necessary to function as part of an inter-professional team to provide patient-centered collaborative care. Inter-professional teamwork may be demonstrated in didactic, clinical or simulated learning environments.
- 9. BUSINESS: Assessing personal skills and attributes, developing leadership skills, leveraging talents and strengths that provide an achievable expectation for graduate success. Adopting a systems-based approach to business operations. Networking with practitioners in associated fields with chiropractic, alternative medicine and allopathic medicine. Experiencing and acquiring the hard business skills required to open and operate an on-going business concern. Participating in practical, real time events that promote business building and quantifiable marketing research outcomes
- 10. PHILOSOPHY: Demonstrates an ability to incorporate a philosophically based

Chiropractic paradigm in approach to patient care. Demonstrates an understanding of both traditional and contemporary Chiropractic philosophic concepts and principles. Demonstrates an understanding of the concepts of philosophy, science, and art in chiropractic principles and their importance to chiropractic practice.
